## Burchell Nursery Exclusive Flame® Series Peaches Approximate Ripening Dates in Fresno, CA

**\*\*PLEASE NOTE:** This chart shows the types, and the characteristics of fruit being developed by the Burchell Nursery Breeding Program. Some of the selections that produce this fruit are patented and some are still experimental. The experimental material is not available for sale to the general public at this time. Distribution of these selections will be for experimental/testing use only, and will be subjected to a non-propagation/testing agreement. This agreement requires the recipient to provide Burchell observations and data about the new and promising selections. "The parties agree that the trees provided under this agreement are for experimental use only, and the transfer of this plant material is not a sale, or public use as those terms are defined and interpreted under 35USC et. Seq." The use of this material will be restricted. Further details can be obtained from Burchell Nursery and its representatives.\*\*
